

Aluplast Multi Slide

Kunststof schuifpui en schuifraam, 1 of 2 rails

Kaderprofiel — bouwdiepte 80 mm

Vleugelprofiel — aanzicht 142 mm

This is a schematic cross-section, built from the measured frame depth, frame width and sightline. The chamber layout, seals and reinforcement are not measured — they come from the supplier's technical drawing.

Specifications

Material	kunststof
Frame depth	80 mm
Outer frame width	66 mm
Sightline	142 mm
Size tolerance	± 2 mm up to 1 m, ± 3 mm above that
