

Rehau Synego hefschuifpui

Kunststof hefschuifpui, kozijn 190 mm diep, vleugel 80 mm

Kaderprofiel — bouwdiepte 190 mm

Vleugelprofiel — aanzicht 179 mm

This is a schematic cross-section, built from the measured frame depth, frame width and sightline. The chamber layout, seals and reinforcement are not measured — they come from the supplier's technical drawing.
