

Reynaers ConceptFolding 77

Aluminium vouwwand, 77 mm bouwdiepte, vleugel tot 1.200 mm breed

Kaderprofiel — bouwdiepte 77 mm

Vleugelprofiel — aanzicht 89 mm

This is a schematic cross-section, built from the measured frame depth, frame width and sightline. The chamber layout, seals and reinforcement are not measured — they come from the supplier's technical drawing.

Specifications

Material	aluminium
Uf	1.66 W/m²K
Frame depth	77 mm
