

Reynaers SlimLine 38

Aluminium raamsysteem met smal profiel, 99 mm bouwdiepte en een aanzichtbreedte vanaf 33,5 mm

Kaderprofiel — bouwdiepte 99 mm

This is a schematic cross-section, built from the measured frame depth, frame width and sightline. The chamber layout, seals and reinforcement are not measured — they come from the supplier's technical drawing.

Specifications

Material	aluminium
Uf	1.90 W/m²K
Frame depth	99 mm
