

Schüco Living City

Kunststof kozijn met verdiept vleugelbeeld, blokvormige kadercontour; glas tot 52 mm

Kaderprofiel — bouwdiepte 120 mm

Vleugelprofiel — aanzicht 92 mm

This is a schematic cross-section, built from the measured frame depth, frame width and sightline. The chamber layout, seals and reinforcement are not measured — they come from the supplier's technical drawing.
