

Schüco Living Vlak

Kunststof kozijn met vlak aanzicht, 82 mm bouwdiepte; glas 20-52 mm

Kaderprofiel — bouwdiepte 82 mm

Vleugelprofiel — aanzicht 120 mm

This is a schematic cross-section, built from the measured frame depth, frame width and sightline. The chamber layout, seals and reinforcement are not measured — they come from the supplier's technical drawing.
